

# NEW SYNERGIC SYSTEM WITH RENEWABLE ENERGY FOR NZEB BUILDINGS

22/03/2020

UNIONE EUROPEA

REGIONE DEL VENETO

Un moltiplicatore di opportunità.  
Da non lasciarsi sfuggire.

Brofer continues its path of growth in climate ventilation, a true system response for NZEB buildings. With the participation in the SYNSYS PLANT project, HPU600 Brofer's aerualic heat pump becomes part of a synergic system for responding to all the energy needs of new generation plant systems.
